

# Art on the Wrist

3-dimensional piano keys and a clef as relief on the dial - this avant-garde design creates musical feelings and attracts any fan of sophisticated music, art and watch enthusiast around the world.

The watch "barbara", hand-made by Alexander Shorokhoff Manufactory, received the German Design Award „Special Mention 2016“ for its outstanding design.

Shorokhov pays his respect to one of the greatest contemporary female jazz musicians: "Barbara's avant-garde music has captured me. I created a watch with organ keys around a clef. This remarkable design corresponds to the work of this unique artist."

The hand-made automatic watch is strictly limited and also available directly through [Barbara Dennerlein](#).

*barbara*

From the Alexander Shorokhoff watch manufactory:

## Model barbara from the series "Avantgarde"

The automatic winding stainless steel watch with hand-engraved and refined rotor has a antireflective sapphire glass on front and a sapphire glass on back. It has a diameter of 43.5 mm and height of 11.5 mm. The dial consists of three parts and is manufactured on CNC machines. The clef is raised and the genuine calfskin leather strap has a beautiful embossing.
